Introduction to Clinical Pain Management: Practice and Procedures	xv
How to use this book	xvii
Abbreviations	xix

PART I PRINCIPLES OF MEASUREMENT AND DIAGNOSIS 1

1	History-taking and examination of the patient with chronic pain <i>Paul R Nandi and Toby Newton-John</i>	3
2	Practical methods for pain intensity measurements <i>William I Campbell and Kevin E Vowles</i>	12
3	Selecting and applying pain measures <i>Johannes Van Der Merwe and Amanda C de C Williams</i>	28
4	Sensory testing and clinical neurophysiology <i>Ellen Jørum and Lars Arendt-Nielsen</i>	43
5	Pharmacological diagnostic tests <i>Andrew P Baranowski and Natasha C Curran</i>	56
6	The role of biochemistry and serology in pain diagnosis <i>Hilde Berner Hammer</i>	67
7	Diagnostic algorithms for painful peripheral neuropathy <i>David Bennett</i>	75
8	Novel imaging techniques <i>Michael Lee and Irene Tracey</i>	83

PART II THERAPEUTIC PROTOCOLS 93

9	After assessment, then what? Integrating findings for successful case formulation and treatment tailoring <i>Steven J Linton and Michael K Nicholas</i>	95
---	--	----

Section A: Pharmacological therapies 107

10	Treatment protocols for opioids in chronic nonmalignant pain <i>Harald Breivik</i>	109
11	Subcutaneous drug infusion protocols for the control of cancer pain <i>Humaira Jamal and Ivan F Trotman</i>	121
12	Antiepileptics, antidepressants, and local anesthetic drugs <i>Harald Breivik and Andrew SC Rice</i>	134

Section B: Psychological techniques	143
13 Self-regulation skills training for adults, including relaxation <i>David Spiegel</i>	145
14 Biofeedback <i>Frank Andrasik and Herta Flor</i>	153
15 Contextual cognitive-behavioral therapy <i>Lance M McCracken</i>	167
16 Graded exposure <i>in vivo</i> for pain-related fear <i>Johan WS Vlaeyen, Jeroen De Jong, Peter HTG Heuts, and Geert Crombez</i>	177
Section C: Physical therapy and rehabilitation protocols	191
17 Transcutaneous electrical nerve stimulation <i>Timothy P Nash</i>	193
18 Acupuncture <i>Mike Cummings</i>	206
19 Physiotherapy <i>Harriët M Wittink and Jeanine A Verbunt</i>	220
20 Manual medicine <i>Steve Robson and Louis Gifford</i>	230
Section D: Interventional procedures	241
21 Introduction to interventional procedures <i>William I Campbell and Harald Breivik</i>	243
22 Psychological aspects of preparation for painful procedures <i>Rachael Powell and Marie Johnston</i>	245
23 Peripheral nerve blocks: practical aspects <i>David Hill</i>	255
24 Intravenous and subcutaneous patient-controlled analgesia <i>Stephan Locher and Michele Curatolo</i>	293
25 Alternative opioid patient-controlled analgesia delivery systems – transcutaneous, nasal, and others <i>Gunnvald Kvarstein</i>	303
26 Epidural analgesia for acute pain after surgery and during labor, including patient-controlled epidural analgesia <i>Harald Breivik</i>	311
27 Sympathetic blocks <i>Harald Breivik</i>	322
28 Neurolytic blocks <i>William I Campbell</i>	337
29 Intra-articular and local soft-tissue injections <i>Michael Shipley and Vanessa Morris</i>	349
30 Facet (zygapophyseal) joint injections and medial branch blocks <i>Ron Cooper</i>	361
31 Intrathecal drug delivery <i>Jon Raphael and Kate Grady</i>	370
32 Cryoanalgesia <i>Gunnvald Kvarstein and Henrik Högström</i>	379
33 Radiofrequency lesioning and treatment of chronic pain <i>Ben JP Crul, Jan HM Van Zundert, and Maarten Van Kleef</i>	389
34 Spinal cord stimulation <i>Simon Thomson and Malvern May</i>	404
35 Epidural (interlaminar, intraforaminal, and caudal) steroid injections for back pain and sciatica <i>Ivan N Ramos-Galvez and Ian D Goodall</i>	416

36	Epiduroscopy and endoscopic adhesiolysis <i>Jonathan Richardson, Jan Willem Kallewaard, and Gerbrand J Groen</i>	427
37	Discogenic low back pain: intradiscal thermal (radiofrequency) annuloplasty and artificial disk implants <i>Gunnvald Kvarstein, Leif Måwe, and Aage Indahl</i>	438
Section E: Pediatric techniques		445
38	Pain assessment in children <i>Nancy F Bandstra and Christine T Chambers</i>	447
39	Procedures for pediatric pain management <i>Richard F Howard</i>	462
40	Mind/body skills for children in pain <i>Timothy Culbert, Stefan Friedrichsdorf, and Leora Kuttner</i>	478
PART III CLINICAL TRIALS		497
41	Placebo and nocebo <i>Luana Colloca, Damien G Finniss, and Fabrizio Benedetti</i>	499
42	Clinical trials: acute and chronic pain <i>Audun Stubhaug and Harald Breivik</i>	514
43	Clinical trials: dental pain <i>Else K Breivik Hals</i>	529
44	Clinical trials: cancer pain <i>Ulf E Kongsgaard and Mads U Werner</i>	538
45	Clinical trials: neuropathic pain <i>Andrew SC Rice</i>	552
46	Techniques of systematic reviews and meta-analysis in pain research <i>Lesley A Smith</i>	566
PART IV ORGANIZATION OF MULTIDISCIPLINARY PAIN MANAGEMENT TEAMS		577
47	Organization and role of acute pain services <i>David Counsell, Pamela E Macintyre, and Harald Breivik</i>	579
48	Acute pain services and organizational change <i>Alison E Powell, Huw TO Davies, Jonathan Bannister, and William A Macrae</i>	604
49	Comprehensive pain rehabilitation programs: a North American reappraisal <i>Peter R Wilson</i>	619
50	Organization of pediatric pain services <i>George Chalkiadis</i>	628
51	Where does pain fit within healthcare delivery systems and organizations? <i>Brian R Theodore, Chetwyn CH Chan, and Robert J Gatchel</i>	654
PART V OTHER ISSUES		663
52	The use of guidelines, standards, and quality improvement initiatives in the management of postoperative pain <i>Tone Rustoen and Christine Miaskowski</i>	665
53	The expert medicolegal report <i>Peter JD Evans</i>	677
Index		687

Please note: The table of contents and a combined index for all four volumes in the series can be found on the Clinical Pain Management website at: www.clinicalpainmanagement.co.uk.
